The Western Union Telegraph Company, last year, handled 45,966,546 messages.

The New York Tribune estimates the present population of the United States at 02,523,597.

One of the saddest things about human nature is that a man may guide. others in the path of life without walking in it himself; that he may be a pilot and yet a castaway. - Anon.

The engagements for passage from Ireland which have already been made indicate that the congration from that country to the United States this year will be larger than in any recent year. Wagon if not larger than ever before in that

A fancy statistician on the New York Tribune has estimated that there are 3,000,000 men in America who get shaved three times a week. That means an expenditure of 30 cents a week, or \$15.60 a year for each man. or for the 3,000,000 \$15,600,000 au-

Manitobans are agitating a scheme to transport the whole population of Iceland, about 75,000, to that country, together with their flocks and herds. This would be a remarkable exedus. There has been a steady flow of Icelandic emigration to Canada for the last fifteen years.

The wealthiest Knight of Pythias Lodge in the world is the Live Oak Lodge, of Cakland, Cal. Its membership is over 300 and the aggregated wealth runs high in the unilions. Its Who can do it? Nobody but treasury represents between \$2,500;-000 and \$3,000,000. All furniture used in the lodge is covered with mo- The reason is I pay no license. It does rocco. One of the aged members recently died, bequeathing the lodge \$300,000, and his widow, who did not long survive him, willed the lodge \$100,000.

Buttons made of fresh dried beef blood are among the trimmings used largely this season by dressmakers. They are all made in a factory near Chicago, and some 8,000 or 10,000 gallons of blood are utilized duily. Many a woman who buys cheap jewelry has earrings or broches, belt clasps or hair ornaments, or any one of a dozen other ernaments made of hair with the same material and think to Alaska I can and will sell cheap, she is using horn, or ayonite, or celluloid, when she is using only the albumen left after the bulk of the blood har evaporated. Er.

Since the opening of new artesian wells in the Desert of Sahara, a large increase in the number of palm and other fruit trees has taken place. The borings made since 1881, however, show a diminution in the yield of water, and it is probable that the limit of the capacity of the veins found at the usual depth has been reached. The wells sunk by the French bave a much smaller here than those of the Ara- family bians, and owing to the difficulty of cleaning them when stopped up by the sand, it has been decided to give the new wells a much larger callbre.

Rider Haggard's imagination did not sour far from the reality when he described a fountain of fire in the midst of a flowing river. At one place in the Indian gas field the aurplus gas from a gas well is carried off by a 3 inch pipe and turned into the river; when the full pressure of the gas is turned into the pipe the waters of the river are thrown to a hight of from thirty to fifty feet, and fall back through the immense flame made by the burning gas. The varied hues imparted to the falling water give it the appearance of a true fountain of

Philadelphia bas a new Church called "The Socialist Church." Every member takes the following covenant: "I hereby solemnly swear that I will not rob, cheat, strike, tell lies about, communicate disease to, nor injure in any way, a fellow member of this Church. I also swear that I will drink distilled and fermented liquors with great care and moderation. I also awear that I will not lend money to nor borrow money from any member of this Church, except as a regular business transaction. I also swear that, as far as I am able, I will keep or the swear is the way centre of training and the converted with all the leading business with the plants and dwelling in a gloss and beauty as a sum of the case of the said contains a proposition of the case of the case of the said contains and responsible to the case of nor borrow money from any member clean and healthy condition." This is practical raligion of the right sort.

Rev. Dr. John Hall, of New York, is a financial success as well as a profound theologian. A few years ago he came to America from his native-Irstand, comparatively poor, now he ranks as a millionaire, with an annual ipeace of one hundred thousand dellars. His congregation, it is said, aggregates, in wealth, a greater sum than any congregation on earth-four hundred million of dollars. The possessors of this fabulous amount are rather ragular attendants on the sametuary, and many of the richest women and men are workers in Dr. Hall's Sabbath schools. His receipts for marriage fees, mone, are said to be nearly forty thousand dollars in the past six results."- El Paso Tribune.
